

## Invesco Fixed Income team update

On October 3, 2022, Invesco announced that Avi Hooper (Senior Portfolio Manager, Fixed Income) is no longer with the firm. While Avi had portfolio management duties, he did not have any credit coverage responsibilities and the Canadian Fixed Income will still be supported by the same analyst team. There are currently 14 credit research analysts that cover Canadian Fixed Income.

Matthew Brill, Todd Schomberg and Michael Hyman have been the Portfolio Managers responsible for the Fixed Income strategy since early 2018. Invesco does not anticipate any further changes to the team.

The PM team and analysts who have been responsible for this mandate are still in place. The IMR team will continue to monitor the fund as a result of this announcement.

The fund's benchmark, fee, investment objective and style remain unchanged and no action is required.
