

Brandywine Announces Portfolio Management Update for Global Bond

Effective September 30, 2026, Portfolio Manager Jack McIntyre will retire from Brandywine Global, following a long tenure with the firm. Jack joined Brandywine in 1998 and has served as a portfolio manager across a range of strategies, including the Global Multi-Sector (GMS) strategy and Global Fixed Income strategies. His retirement comes at a natural point in his career and follows participation in a broader voluntary retirement program offered by Franklin Templeton earlier this year.

Also, effective September 30, 2026, Michael Arno will assume portfolio management responsibilities on the Global Fixed Income portfolio.

The funds' fee, investment objective and style remain unchanged, and no action is required.
